PA/OF 0070: Dangerous Goods Regulations

PACIFIC AIRLINES

Customised Table 2.3.A & 2.3.B

Dangerous Goods Regulations carried by Passengers and Crew

ISSUE 2.1

CUSTOMISED TABLE 2.3.A-Dangerous Goods Regulations carried by Passengers and Crew				Effective 01 Jul 2026
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*		**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
AEROSOLS - non-flammable gas e.g. substances that cannot be applied to the body, items for sporting or home use (non-flammable gas 2.2 only) • Each item must not exceed 500g/500ml net each • Total quantity of items (including toiletries) must not exceed 2kg/2L per person ***Note:*** *All aerosol valves must be protected by a cap or safety device.*		✓	✗	✓
ALCOHOLIC BEVERAGES • Up to 5L of alcohol (between 24-70% alcohol) per passenger • Securely sealed in retail packaging ***Note:*** *No quantity limit applies to alcohol under 24% when carried as checked baggage.*		✓	✓	✓
AMMUNITION • Not allowed on PA aircraft. ***Note:*** *Except security guard allowed to carry weapon such as gun with ammunition (on person) on board to protect governmental leaders.*		✗	✗	✗
AVALANCHE RESCUE BACKPACK • Not allowed on PA aircraft.		✗	✗	✗

CUSTOMISED TABLE 2.3.A-Dangerous Goods Regulations carried by Passengers and Crew				Effective 01 Jul 2026
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*		**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
BAGS FITTED WITH BATTERIES OR POWERBANKS		**SEE TABLE 2.3.B**		
BATTERIES – spare/loose powerbanks				
CAMPING STOVE AND FUEL CONTAINERS				
Flammable Gas Stove • Inspection is required, if any gas smell is detected the item **must** be denied ***Note:*** *Flammable gas canisters are* ***forbidden.***		✓	✗	✓
Flammable Liquid Fuel Stove • Not allowed on PA aircraft.		✗	✗	✗
CIGARETTE/ZIPPO/ARC/PLASMA LIGHTERS OR SAFETY MATCHES • **1** per passenger and must be kept on one's person (in a pocket) Lighter cannot contain unabsorbed liquid fuel, other than liquefied gas ***Note:*** *Strike anywhere matches, book matches, lighter fuel/lighter refills, blue/green flame cigar lighters or lighters powered by a lithium battery which can be accidentally turned on, are* ***forbidden.***		✓	**ON THE PERSON (in a pocket)**	

CUSTOMISED TABLE 2.3.A-Dangerous Goods Regulations carried by Passengers and Crew		Effective 01 Jul 2026	
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*	**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
CO2 GAS CARTRIDGES or other non-flammable gas e.g. bicycle inflation bulbs, bicycle repair kits • Not allowed on PA aircraft.	✗	✗	✗
DRY ICE - carbon dioxide, solid (CO2): Not allowed on PA aircraft. Exception for using for: - Food and beverage service aboard the aircraft, - Medical or scientific purposes (e.g. transport of vaccines, biological substances or human organs) Packed in a manner that permits the release of carbon dioxide gas; Within the quantity limits permitted by the operator (max 25 kgs use on board)	✗	✗	✗
DRY SHIPPER - insulated packaging containing refrigerated liquid nitrogen e.g. embryos, specimens etc. • Contents must be non-infectious, non-dangerous	✓	✓	✓
E-CIGARETTES, PERSONAL VAPING DEVICES CONTAINING BATTERIES **ELECTRONIC DEVICES/MEDICAL EQUIPMENT (PORTABLE) CONTAINING BATTERIES**	**SEE TABLE 2.3.B**		
ENGINES - Internal Combustion e.g. generators, chainsaws, whipper snipper etc. • Not allowed on PA aircraft.	✗	✗	✗

CUSTOMISED TABLE 2.3.A-Dangerous Goods Regulations carried by Passengers and Crew			Effective 01 Jul 2026
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*	**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
FIREARMS AND SUPPORTING TOOLS • Firearms (without ammunition) and supporting tools will be accepted on domestic flights only and be put in a locked security box which is placed in cargo compartment. • PA does not carry any weapons, supporting tools in the passenger compartment except security guard allowed to carry weapon such as gun with ammunition (on person) on board to protect governmental leaders. ***Note:*** *Refer to PA Aviation Security Program for details of the policy.*	✓	✗	✓
FUEL CELL containing fuel e.g. some power tools, some laptop computers • Up to 200ml of fuel or 200g for solid fuel or 120ml liquefied gas • Must be marked "Approved for carriage in Aircraft Cabin Only" 	✓	✓	✗
FUEL CELL CARTRIDGE, spare for portable electronic devices • Up to **2** per passenger • Up to 200ml of fuel or 200g for solid fuel or 120ml liquefied gas 	✓	✓	✓
GAS CARTRIDGES FOR MECHANICAL LIMBS – non-flammable, non-toxic gas • Spare cartridges of a similar size are permitted.	✓	✓	✓
HAIR CURLER CONTAINING HYDROCARBON GAS • **1** per passenger and cannot be used onboard • The safety cover must be securely fitted over the heating element ***Note:*** *Gas refills are forbidden.*	✓	✓	✓
HEAT PRODUCING ITEMS e.g. diving lamps, soldering irons etc.	**SEE TABLE 2.3.B**		

CUSTOMISED TABLE 2.3.A-Dangerous Goods Regulations carried by Passengers and Crew		Effective 01 Jul 2026		
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*		**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
MEDICAL OR CLINICAL THERMOMETER CONTAINING MERCURY • **1** per passenger • For personal use only and in a protective caset		✓	✗	✓
MERCURY BAROMETER OR THERMOMETER • Not allowed on PA aircraft.		✗	✗	✗
MOBILITY AIDS		**SEE TABLE 2.3.B**		
OXYGEN CYLINDER FOR MEDICAL USE (BOC, Air Liquide, Supagas only) • Not allowed on PA aircraft.		✗	✗	✗
PACEMAKER • Radioisotopic cardiac or other device implanted into a person or fitted externally		✓	**IN/ON THE PERSON**	

CUSTOMISED TABLE 2.3.A-Dangerous Goods Regulations carried by Passengers and Crew		Effective 01 Jul 2026		
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*		**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
POWER TOOLS CONTAINING BATTERIES		**SEE TABLE 2.3.B**		
SECURITY TYPE EQUIPMENT				
SELF-INFLATING SAFETY DEVICE with CO2 cartridges e.g. lifejackets, airbag vests/jacket etc. • Not allowed on PA aircraft.		✗	✗	✗
SPECIMENS OR SAMPLES IN SMALL AMOUNTS OF FLAMMABLE LIQUID • Must be non-infectious/non-hazardous • No more than 30ml of liquid per inner container and • No more than 1L per package		✓	✗	✓
TOILETRIES AND MEDICINAL ITEMS e.g. items that can be applied to the body using an aerosol, cream or liquid • Each item must not exceed 500g/500ml net each • The total quantity of items (including aerosols non-flammable) must not exceed 2kg or 2L per person ***Note:*** *All aerosol valves must be protected by a cap or safety device.*		✓	✓	✓

Important*: Allowances are for personal use only. Commercial quantities are not permitted as passenger baggage and must be sent as freight.*

Formulas: - Determine the Watt Hour (Wh) rating of a battery **- Voltage (V) x Amps (ah) = Watt Hours (Wh)**

- Convert Milliamps to Amps - **divide Milliamps (mAh) by 1000**

CUSTOMISED TABLE 2.3.B – Batteries and Battery Powered Equipment Dangerous Goods Regulations carried by Passengers and Crew				Effective 01 Jul 2026
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person		Allowed on PA	Carry-on baggage	Checked baggage
BAGS FITTED WITH BATTERIES OR POWERBANKS e.g. Smartbags				
Lithium Batteries or Lithium Powerbanks fitted in a Bag that are used to Recharge Portable Electronic Devices e.g. *via USB style port* • Lithium batteries or lithium powerbanks, other than button cells, *must* be removed from the bag • Must be carried in accordance with the 'Batteries spare/loose, powerbanks' carriage requirements Note: Baggage fitted with non-removable lithium batteries or powerbanks are forbidden.		**Go to BATTERIES spare/loose in this Table**	✓	✗
Lithium Batteries or Lithium Powerbanks fitted in a Bag that are used to Power Inbuilt Electronic Bag Functions *e.g. bag tag, locks, scales, ride on bag etc* • Lithium batteries or lithium powerbanks, other than button cells, must be removed from the bag • Must be carried in accordance with the 'Batteries spare/loose, powerbanks' carriage requirements		**Go to BATTERIES spare/loose in this Table**	✓	✗
• Non-lithium batteries or non-lithium powerbanks can remain fitted in the bag		✓	✓	✓
BATTERIES - Spare/loose, power banks etc., for Portable Electronic Devices – no more than 20 spare batteries in total for personal use, are permitted per passenger(Exception: Power banks/portable chargers: Maximum 02 power banks/portable chargers per passenger)				
Alkaline and all Others: *e.g. Nickel Cadmium (NiCd), Nickel Metal Hydride (Ni-MH) etc.* Lithium ion not exceeding 100Wh Lithium metal not exceeding 2g of lithium metal • All terminals must be protected e.g. in retail packaging, taped, plastic bags etc. (these form part of the total spare battery limit)		✓	✓	✗
Power banks/portable chargers: Maximum 02 power banks/portable chargers per passenger. Lithium-ion batteries must not exceed 100Wh Lithium metal batteries must not exceed 2 g lithium metal • Each power bank must be protected individually to prevent short circuit (e.g. in retail packaging, terminals insulated or taped, or each power bank placed in a separate plastic bag or protective pouch). • During flight, passengers must remove power banks from carry-on baggage, keep them in a visible and easily accessible location, and must not use power banks to charge other devices. • Charging power banks onboard is not permitted.		✓	✓	✗

CUSTOMISED TABLE 2.3.B-Dangerous Goods Regulations carried by Passengers and Crew		Effective 01 Jul 2026		
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*		**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
Lithium ion (rechargeable), including powerbanks, exceeding 100Wh **Lithium metal (non-rechargeable) exceeding 2g of lithium metal** • Not allowed on PA aircraft.		✗	✗	✗
Non-Spillable Batteries up to 12V and 100Wh e.g. Gel cell, Sealed Lead Acid (SLA), Valve Regulated Lead Acid (VRLA) • Only **2** spares per passenger (these form part of the total spare battery limit) • All terminals must be protected e.g. in retail packaging, taped, plastic bag etc.		✓	✓	✗
ELECTRONIC DEVICES/MEDICAL EQUIPMENT (PORTABLE) CONTAINING LITHIUM BATTERIES - no more than **15** lithium battery powered portable electronic devices (including power tools), in total and for personal use only, are permitted per passenger				
Lithium Ion Batteries (rechargeable) not exceeding 100Wh and **Lithium Metal Batteries (non-rechargeable) not exceeding 2g of lithium metal** **in Portable Devices/Equipment** e.g. mobile phone, laptop, tablet, game consoles, CPAPs, oxygen concentrators, ventilators, nebuliser, etc. (excluding power tools)		✓	✓	✗

CUSTOMISED TABLE 2.3.B-Dangerous Goods Regulations carried by Passengers and Crew			Effective 01 Jul 2026
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*	**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
ELECTRONIC DEVICES/MEDICAL EQUIPMENT (PORTABLE) CONTAINING LITHIUM BATTERIES - no more than **15** lithium battery powered portable electronic devices (including power tools), in total and for personal use only, are permitted per passenger			
Lithium Ion Batteries (rechargeable) exceeding 100Wh in Portable Devices/ Equipment e.g. commercial cameras, remote control aircraft, drones etc. **Lithium Metal Batteries (non-rechargeable) exceeding 2g of lithium metal in Portable Medical Devices/Equipment only** e.g. defibrillator etc. • Not allowed on PA aircraft.	✗	✗	✗
ELECTRONIC DEVICES (PORTABLE) CONTAINING NON-SPILLABLE AND OTHER BATTERY TYPES for personal use only (not included in the **15** lithium battery powered portable electronic device limitation)			
Non-spillable Batteries up to 12V and 100Wh e.g. Sealed Lead Acid, Valve Regulated Lead Acid, etc. **Other Battery Types** e.g. Alkaline, Nickel Cadmium (NiCd) etc., **in Portable Devices/Equipment** • The **ON/OFF** switch must be protected from turning on or • The battery is disconnected, and the terminals protected e.g. in retail packaging, taped, plastic bags etc.	✓	✓	✓
HEAT PRODUCING ITEMS e.g. diving lamps, soldering irons etc. • Not allowed on PA aircraft.	✗	✗	✗

CUSTOMISED TABLE 2.3.B-Dangerous Goods Regulations carried by Passengers and Crew			Effective 01 Jul 2026
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*	**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
MOBILITY AIDS			
Lithium Ion Batteries not exceeding 100Wh and not easily removed from a Mobility Aid • Not allowed on PA aircraft. 	✗	✗	✗
Lithium Ion Batteries exceeding 100Wh easily removed from a Mobility Aid • Not allowed on PA aircraft. 	✗	✗	✗
Lithium Ion Batteries exceeding 100Wh not easily removed from a Mobility Aid • Not allowed on PA aircraft. 	✗	✗	✗
Spare Lithium Ion Batteries exceeding 100Wh for a Mobility Aid • Not allowed on PA aircraft. 	✗	✗	✗

CUSTOMISED TABLE 2.3.B-Dangerous Goods Regulations carried by Passengers and Crew			Effective 01 Jul 2026
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*	**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
Non-Spillable, Dry Cell Batteries exceeding 12V Easily Removed from a Mobility Aid e.g. AGM, SLA, NiMH, etc. • Not allowed on PA aircraft. 	✗	✗	✗
Non-Spillable, Dry Cell Batteries exceeding 12V not Easily Removed from a Mobility Aid e.g.AGM, SLA, NiMH, etc. • Not allowed on PA aircraft. 	✗	✗	✗
Spare Non-Spillable, Dry Cell Batteries exceeding 12V for a Mobility aid • Not allowed on PA aircraft. 	✗	✗	✗
Spillable Batteries not Removed from a Mobility Aid • Not allowed on PA aircraft. 	✗	✗	✗

CUSTOMISED TABLE 2.3.B-Dangerous Goods Regulations carried by Passengers and Crew		Effective 01 Jul 2026		
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*		**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
POWER TOOLS CONTAINING BATTERIES - no more than **15** lithium battery powered portable electronic devices (including power tools), in total and for personal use only, are permitted per passenger				
Lithium Ion Batteries (rechargeable) not exceeding 100Wh Removed/Detached from the Tool • All terminals must be protected e.g. in retail packaging, taped, plastic bags etc. (these form part of the total spare battery limit) ***Note:*** *All tools (minus the battery) must be carried In checked baggage only.*		✓	✓	✗
Lithium Ion Batteries (rechargeable) not exceeding 100Wh Contained in/Attached to the Tool • *Power Tools (Cordless drills/drivers, handheld grinders, portable surveying and measuring equipment, etc)* • *Consumer and Household Electronic Appliances (Handheld vacuum cleaners, mini battery mowers, portable electric pumps, etc)* • The **ON/OFF** switch must be protected from turning on e.g. taped • The tool must be securely contained in either a hard/moulded case or a sturdy box, unable to move • Only 1 tool per box or 2 are permitted in a hard case if the case is specifically moulded to securely fit 2 tools		✓	✗	✓
Lithium Ion Batteries (rechargeable) exceeding 100Wh Removed/Detached from the Tool • Not allowed on PA aircraft.		✗	✗	✗
Lithium Ion Batteries (rechargeable) exceeding 100Wh Contained In/Attached from the Tool • Not allowed on PA aircraft.		✗	✗	✗

CUSTOMISED TABLE 2.3.B-Dangerous Goods Regulations carried by Passengers and Crew			Effective 01 Jul 2026
Customer Service Agents/Officers must confirm all Carriage Requirements are met (dangerous goods information is available to passengers at the company's website) *Unless specified, dangerous goods in carry-on baggage are permitted 'on one's person'*	**Allowed on PA Aircraft**	**Carry-on Baggage**	**Checked Baggage**
SECURITY TYPE EQUIPMENT e.g. attache cases, cash bags, cash boxes • Not allowed on PA aircraft. 	✗	✗	✗

Important - Allowances are for personal use only. Commercial quantities are not permitted as passenger baggage and must be sent as freight.

Formulas: - determine the Watt Hour (Wh) rating of a battery **- Voltage (V) x Amps (ah) = Watt Hours (Wh)**
- convert Milliamps to Amps **- divide Milliamps (mAh) by 1000**

DANGEROUS GOODS FORBIDDEN IN CARRY-ON OR CHECKED BAGGAGE

Below are some common items that are classed as dangerous goods and passengers are forbidden to carry them on an aircraft.

Bleach, Oven Cleaner (corrosive) 	**Butane Cartridges/Refills** **Gas Bottles** (flammable gas) 	**Car/Motobike Batteries** (corrosive) 	**Flares, Gun/Black Powder** (explosives)
Firewokrs/Party Poppers (explosives) 	**Fuel/Petrol, Oil Based Paint** (flammable liquid) 	**Gas Canister Refills** **exceeding 28g/50ml** 	**Insect Sprays** (flammable gas)
Paint Stripper, **Hydrogen Peroxides** 	**Pepper, Spray, Mace** (disabling device) 	**Self-Balancing Boards** 	**Sparklers, Firelighters** (flammable solids)

BATTERY OPERATED CPAPS AND PORTABLE OXYGEN CONCENTRATORS - Watt Hour Ratings Batteries with a Watt Hour (Wh) rating under 101Wh **are allowed** to be carried on PA aircraft.
